

**12 Hours****Introduction:**

Sustainability is the biggest challenge of our time, and businesses across all sectors are increasingly embracing more sustainable practices. In the financial sector, investors are searching for investment options that go beyond traditional financial and economic concerns to incorporate environmental, social, and governance (ESG) issues. Meanwhile, banks must now embed sustainability concerns into their day-to-day decision-making and risk management.

**Bundle Content:**

In this bundle, participants will learn all about ESG investment options that go beyond traditional financial and economic concerns through the 3 courses:
